

Strand E: Evaluation

IB Computer Science

Internal Assessment

Marks

- The student must evaluate the effectiveness of the product based on feedback from the client/adviser. This must include direct references to the success criteria identified in criterion A.
- The student must recommend proposals for the future improvement of the product.

Marks	Description
0	The response does not reach a standard described by the descriptors below.
1-2	There is a limited attempt to evaluate the product against the success criteria identified in criterion A. There is limited evidence of feedback from the client/adviser and any recommendations for further improvement are trivial or unrealistic.
3-4	The product is partially evaluated against the success criteria identified in criterion A including feedback from the client/adviser. Recommendations for further improvement of the product are largely realistic.
5-6	The product is fully evaluated against the success criteria identified in criterion A including feedback from the client/adviser. Recommendations for further improvement of the product are realistic.

Brief

What does E include?

- Specifying you have met all of your **success criteria** verbatim from part A.
- Briefly show that the **client liked your product** and had an opinion.
- Briefly suggesting a few feasible ideas for **future improvement**.

Word count: Whatever you have left!

Section E

Part 1: *“Meeting success criteria”*

Copy and paste the success criteria from part A, and state if they were achieved or not. No more than a sentence for each is required.

Part 2: *“Feedback from client”*

Brief feedback from client; their opinions, likes and dislikes. The client should ultimately agree the product is good and useful however...

Section E

Part 3: “*Recommendations for future improvements*”

Briefly suggest 2 or 3 feasible and sensible improvements to your solution. You should quantify it with a brief method of achieving your suggestion.
